I. HF VISION

We are a collective of enthusiasts that want to celebrate the digital transition to web3 and become pioneers within the space.

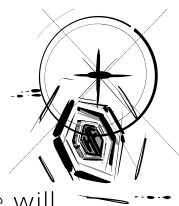

Humans Factory seeks to produce several NFT collections that offer our community high-quality, detailed and sophisticated utilities. Alongside this, our team strives to scaffold a community like no other, that will be involved in the artistic choices, the up-and-coming utility and lastly, the strategy of our unknown collections.

II.

HF ROADMAP

II. ROADMAP

PHASE 0 (SOLD OUT)

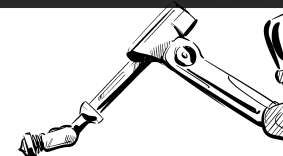

This is where it all begins. The first weeks will be allocated to the foundation of our community. We will welcome our First Humans (OG) through an organic closed discord strategy.

We will establish brand awareness across social media by publishing our white paper, roadmap and our collection sneak peeks. Our ingenious whitelist system, designed to be engaging will help us discover our first Alpha Humans, Hyper Beings and Elites, to grant them access our first NFT, the [Hyper Pass](#).

This pass will be our first Genesis collection with a 333 supply. It aims to reward our first ambassadors as well as defending our professionalism and intentions by proposing a smooth, secure and gas optimised mint experience (ERC-1155 smart contract)

PHASE 1

Thanks to our Hyper Pass sell-out, our budget to scale Humans Factory is far greater. All earnings from the first mint will be allocated for the development of the project. We will focus on consolidating the team, helping diversify with more appropriate skill sets as well as begin to grow market attention with digital marketing actions. We will multiply collaborations with other NFT projects and web3 builders to open doors to large-scale partnerships and quality visibility.

We will establish a long-term connection with our partners and our community will have privileged access to their whitelist opportunities and tools. Their opinions will also count to direct the strategy of the upcoming collections.

We will then deploy a rigorous and strategic marketing campaign, scaffolded alongside marketing teams, advisors and web3 professionals as we embark on the launch of our second pass - The Genesis pass.

II. ROADMAP

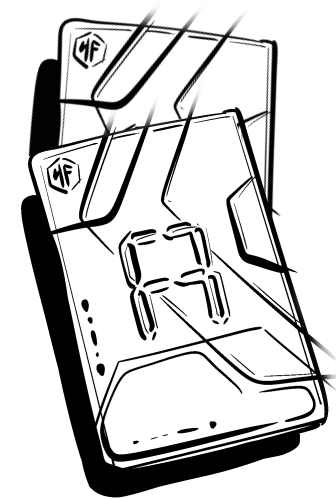

PHASE 2

With an engaged community and successful launches of our Hyper and Genesis pass, our mission is to absolutely bring to light the power of the factory and the role we will play in web3.

Our Pass Holders will be able to mint our GENESIS 2D CARDS collection for free. This collection is, in addition to being aesthetic, filled with utility as it has its own staking contract and tokenomics system. The system has been designed in a way that is enjoyable for the user.

When a user stakes their cards, they earn \$HGMI tokens. The income is dependent on rarity and combinations held. The accumulated tokens can be freely exchanged on the Humans Factory marketplace in order to acquire services related to the NFT and WEB3 universe. We aim to eventually be listed on a DEX but wish to develop our product more first.

- > 40% re-invested in the development of the project
- > 3D collection development
- > Marketing push
- > Staking contract deployment

II. ROADMAP

PHASE 3

To celebrate the completion of all other phases, you'll also be able to rock your Humans Factory identity via our latest 3D Humans collection.

Loaded with your deck of cards and \$HGM1 tokens you'll be able to fully enjoy the Humans Factory Marketplace. It is on the Market Place of the Factory that the advantages and privileges offered will be revealed:

- Acquire NFTs from future HF collections
- Obtain exclusive whitelists from HF partners
- Able to have access to exceptional NFTs from many partner projects at HF
- Or even be initiated and accompanied in the development of Humans Factory Web3 identity and all the functions that arise there

All this while our team will be continuously evolving the utility of each of the Humans Factory's NFTs to further establish a future that continues to have an impact.

PHASE 4

Generate nft services around the needs of our community and implementation of IRL products.

ECOSYSTEM & TOKENOMICS

BEING PART OF THE HUMANS FACTORY ECOSYSTEM GIVES YOU ACCESS TO NEW EXPERIENCES AS AN INVESTOR. THIS WILL INCLUDE, FOR EXAMPLE:

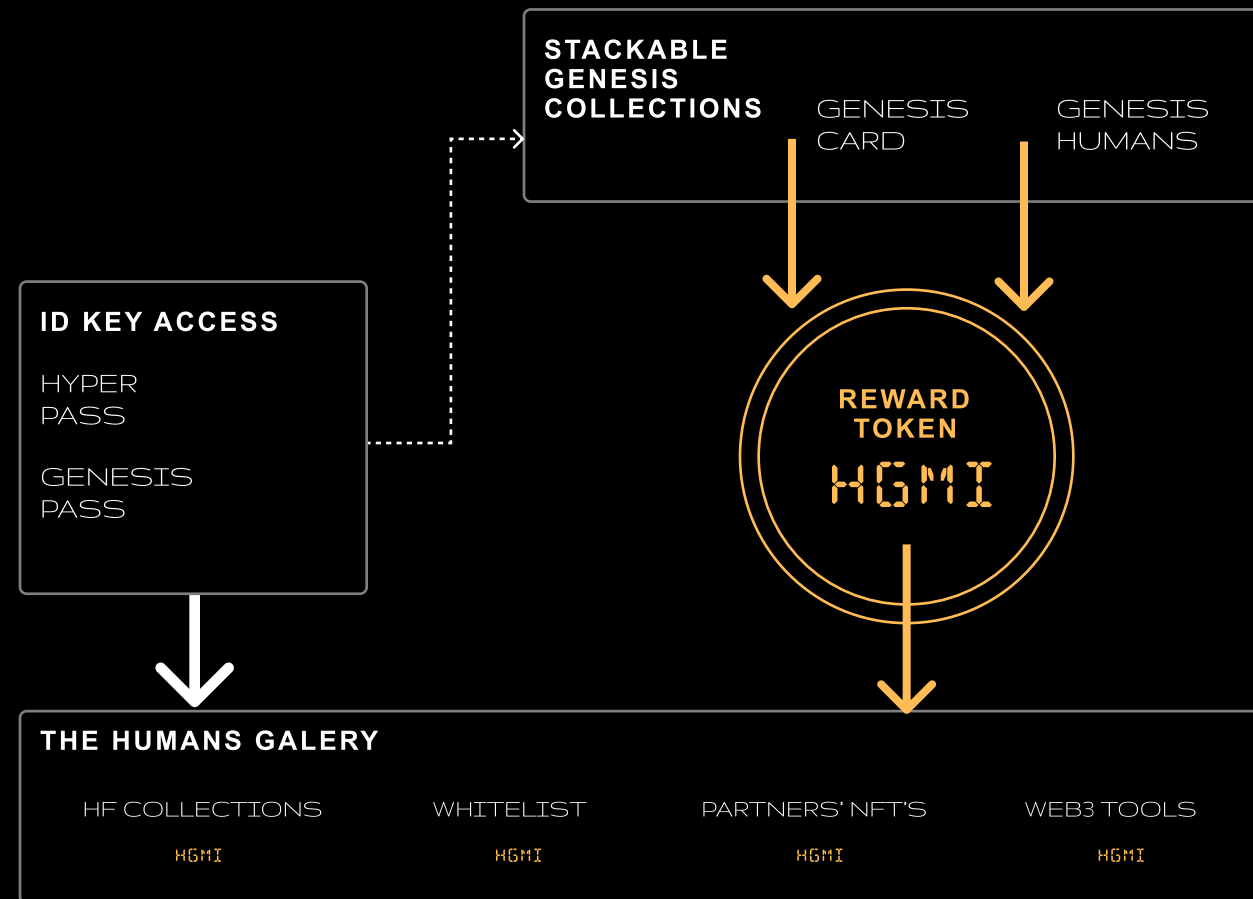

- Special interaction on the website with web3 integration
- Connecting holders to each other via our website
- Bridging the gap between the real world and web3 experience by collaborating with established brands to provide our holders with new experience and opportunities

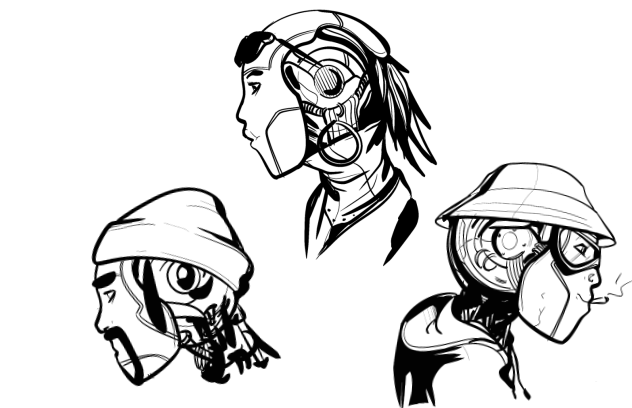

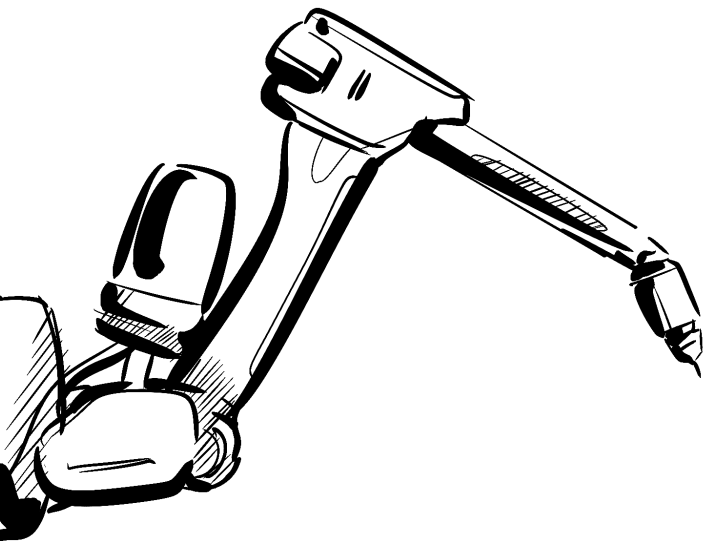

III. THE ECOSYSTEM

The \$HGMI Token

The tokenomics system at Humans Factory is one we have massive ambitions for. The token itself, at the outset of its creation, will be internally based in our website and will not be listed on any decentralised exchanges. However, as time passes we do intend to list the token on DEX's, we just want to focus on creating a quality system of rollout first. The team at Humans Factory is committed to creating a solid and sustainable tokenomics system that will both thrive in terms of longevity and utility. To earn the tokens you will have to stake your NFT, (Genesis 2D card, and 3D Human). Depending on the rarity of the yield defined NFT, a scale allows you to earn more or less of our \$HGMI tokens.

THE HUMANS GALERY: THE MARKETPLACE

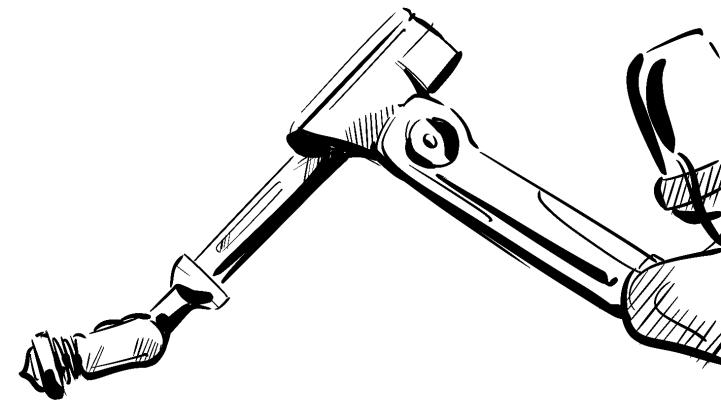

FACTORY'S COLLECTIONS

All passionate about art and blockchain technology, we built a story around HF collections. Creating digital art and digital items inspired by the evolution of human kind in the middle of an unknown technology.

01 . GENESIS PASS
02 . GENESIS CARD
03 . GENESIS HUMANS

To be part of the Factory, you have to possess a key pass. These passes are 3D motion NFTs, an iconic hexagonal item that will be the only way to access all the future collections and utility from our teams and partners.

FACTORY'S PASSES

SMARTCONTRACT 1 : 11-55

HYPER PASS (SOLD OUT)

PERKS:

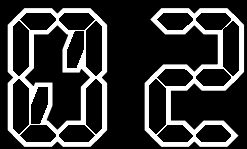

- 2 X FREE GENESIS 2D CARD NFTS.
- 2 X FREE GENESIS 3D HUMAN NFTS.
- ALPHA CALLS FROM OUR TEAM
- REGULAR MEETINGS WITH THE FOUNDERS
- PRIORITY MINTING OF THE FUTURE HF NFT COLLECTIONS
- PRIORITY WHITELIST SPOTS FOR ALL PROJECTS PARTNERING WITH HUMANS FACTORY
- DAO AND VOTING POWER
- EXCLUSIVE ROLE AND SECRET CHANNELS IN THE DISCORD
- MORE UTILITIES TO BE ADDED IN THE FUTURE

GENESIS PASS

PERKS

- 1 X FREE GENESIS 2D CARD NFTS.
- 1 X FREE GENESIS 3D HUMAN NFTS.
- ALPHA CALLS FROM OUR TEAM
- PRIORITY MINTING OF THE FUTURE HF NFT COLLECTIONS.
- PRIORITY WHITELIST SPOTS FOR ALL PROJECTS PARTNERING WITH HUMANS FACTORY.
- EXCLUSIVE ROLE AND SECRET CHANNELS IN THE DISCORD.
- MORE UTILITIES TO BE ADDED IN THE FUTURE.

GENESIS CARD

SMARTCONTRACT 2 : ERC 721A

Once you have your key, you will automatically enter the HF ecosystem. Few days after the sell out of the BOTH PASSES, we launch the STAKEABLE GENESIS CARD collection.

This collection is a fine melange of 2D and 3D art, to offer our people a unique, personal, high hand NFT. This collection will open the doors of our web3 ecosystem.

Behind this crazy design, there is a more exciting value for this card. We developed a tokenomics for the FACTORY. You'll be able to stake your cards via a smart contract to earn \$HGMI TOKEN.

GENESIS HUMANS

SMARTCONTRACT 2 : ERC 721A

The Genesis Humans are a celebration of the digital transition we're living and the world of opportunities that emerges from web3. A unique 3D art piece of a humanoid avatar. Our holders will be involved in the artistic choices and pop-culture references they want to include in this collection. A real representation of the Humans Factory identity.

HUMANS FACTORY FOUNDING TEAM

MEET THE FOUNDERS

ALVIS

29 years old web3 degen who fell in love with the Discord world and the power of real digital communities.
Digital nomad 🇪🇺 Entrepreneur and media engineer 🍷

Co-founded @boulettepoint food-truck in 2017 🍷
Worked as project manager in Switzerland 🇨🇭
Geographically independent since April 2021 - Cryptos and freelance
Former admin in Meta Legends & Shiba Social club
Collab Manager at MetaPopit

MEDY

29 years old, living in Paris, I've been a designer/entrepreneur for 3 years now.
From industrial design to creative direction, I worked and still work for young companies doing product/services design and creative visual content.

My main passion lies within the Arts. I can't live without music and all the visual arts from movies to animation to drawing 🎨

In addition with this, I study a lot life science, body, movement and social interaction. It really pushes me to innovate. I grew up in the suburbs of Paris, so I'm inspired a lot by sports, rap/hip hop, underground and multicultural communities.
My obsession for adventure and innovation bring me to the NFT world, where I saw opportunity to build unbelievable digital experiences and build a real community.

FRANCK

I was born on the French Riviera, and I have always lived there. I have been practicing sport 🏊 in competition since I was little, I like surpassing myself and team spirit.

My father is an entrepreneur and very quickly transmitted this vision of work. Following my studies, I created my structure with my wife, in the events sector. Our activity is mainly located in France and Italy. We develop events for a high-end foreign clientele. Our commitment: their satisfaction.

The technology of NFTs quickly caught my attention. I put all my energy into analyzing this market. And after long months, I embark on my own adventure. That of bringing together a strong, experienced and determined team. That of designing an ambitious project to create a large community. That of establishing a marketing strategy in which everyone will find their place. The one that is being built today thanks to each of you: Humans Factory.

ADRI

34 years old, born in Nice, France, and still lives there today with my wife and 2 children. I am passionate about computers in the broadest sense. My main values are sharing and mutual aid.

I learned all of my basics in a research laboratory at Mines ParisTech and then have a new professional opportunity, as a Lead Developer 🧑💻, to support a start-up of ten people in its development. during 8 years, I go from sole developer to team leader. I naturally branched off to the position of Product Owner. The company then hired 180 people, the web solution generated more than 10M€ per year. The company was finally bought out for about 50M€ and I chose to leave the adventure, feeling that my mission had been fulfilled.

Today, it is with great pleasure that I put all my energy into Humans Factory. The world of cryptocurrencies and NFTs fascinates me. I am convinced that, tomorrow, this universe will revolutionize many fields.

MATHIEU

37 YEARS, I was educated on artistic studies in one of the largest Parisian schools.

At the end of this school course, I had the chance to work for the most prestigious Luxury Houses. I met my wife there and built my family life in Paris.

3 children later, I needed new challenges, so I created my BUSINESS where I have been designing and producing events for the biggest luxury brands for almost 10 years. Always very motivated by new adventures, I wanted a new project that animates me, anchored in our world which is becoming more and more digital.

This new project combines 2 passions that are dear to me, artistic creation 🎨 and its marketing. I can't wait to launch the Genesis Pass mint, the sesame that will open the doors to our multi-drop ecosystem, can't wait to make the Genesis 2D Cards and the Genesis 3D Humans available to you. To officially launch the Humans Factory adventure!

ALL THE HUMANS FACTORY TEAM

We were 5 founders at the start, knowing each other for a longtime for some, and meet on previous nft collections for others, we have built now a strong, passionate and devoted team.
